

Online/Mail order sales of mechanical components

Company presentation

Engrenages HPC specialises in the distribution of mechanical components and other transmission products. HPC has also been manufacturing its own range of gears and gearboxes since 1991 and there are now more than 30,000 references in the catalogue.

Some of the HPC range of products:

gears, racks, pulleys, sprockets, precision gears, gearbox reducers, motor gearboxes, couplings, linear guides, leadscrews, lifting accessories, handling and positioning components...

HPC products have been sold through those familiar small multi-volume catalogues since 1991, now they are available for sale through the **Shop** area on www.hpceurope.com

Custom made and non catalogue products :

Where required HPC is able to modify its standard products to respond to the needs of its customers and will supply custom made parts on request. This service is guaranteed by the competence of the HPC technicians, always available to satisfy the needs of their customers.

In addition to a vast range of standard products, HPC is also able to supply non standard mechanical components thanks to a vast supplier network that has been built up over 20 years.

New for 2011 :

For 2011 HPC added a sixth volume to its catalogue detailing a range of precision gears.

These high specification gears (improved surface finish, reduced backlash) are manufactured to DIN

Quality Grades 8 to 6 depending on the material used.

The range of products in each of the other 5 volumes of the catalogue have been extended with the addition of many new products: locking pins, quick fit terminals, right angled gearboxes, thrust bearings, V shaped chains, spring hinges.....

HPC offers you :

- A full **catalogue** - now in 6 volumes
- A fully functioning **website** -www.hpceurope.com
- An **online shop** - including stock availability for all products
- A **technical datasheet for each product** - available for download in PDF format
- A **free CAD library** - Details of all products available from the CAD portal online or on a DVD
- A **technical support team** ready to answer any queries - Mon to Fri 08.00-12.20 + 13.40 -18.00

Key points

- Distribution of mechanical components
- Manufacture of gears and gearboxes
- Manufacture of custom made parts

Benefits

- Product range regularly updated
- Wide range of parts and components in stock
- 24/48H express delivery (Mainland France)

Industries/sectors served

- Mechanical engineering
- Chemical industry
- Food/Beverage industry
- Maintenance departments
- Packing and filling
- Printing
- Laboratories
- Prototyping
- Design departments
- ...
