

# Quick fitting cable terminals

In the April 2011 version of its catalogue, **Engrenages HPC** has widened its range of industrial lifting accessories by adding quick fitting terminals to an already extensive range of cables, chains, cable clamps, rigging screws, quick links and lifting rings.

All of these accessories are available in either steel or stainless steel, thus meeting the requirements of the widest range of industries.

So as to be able to meet the delivery requirements of its customers, most products are available from stock in both steel and stainless steel versions.
